New Lithrone GX40 Debuts as Komori Flagship Machine

Komori Corporation (Head Office: Sumida-ku, Tokyo, Japan; Chairman, President and CEO: Yoshiharu Komori) has developed a new flagship machine that fulfills a wide range of the most demanding requirements — the Lithrone GX40 40-inch offset printing press.

Komori has developed the Lithrone GX40 40-inch offset printing press as a new flagship machine.

The cutting-edge Lithrone GX40 stands on the pinnacle of Komori technologies and expertise. In addition to extremely stable printing at the 18,000 sheets per hour maximum printing speed, even with heavy stock, the Lithrone GX40 delivers both significantly improved print quality and enhanced agility for color changeovers. Not only the performance needed for high-end commercial and publishing printing but also the print quality and flexibility necessary to meet all the requirements of package printing.

Everything needed for a range of demands, including automatic non-stop devices and control systems for long runs at high speed, new automatic cleaning/washing systems, and availability in special configurations to handle high added value work. The energy-conserving and space-saving design, along with reduced heat emissions, provides genuine benefits for the environment.

<Features>

- High productivity on long runs requiring heavy stock due to stable operation at high printing speed
- Seamless short makeready even when using special colors
- High print quality perfect for deluxe printing work
- Wide range of machine configurations and specifications
- Reduced environmental footprint and exceptional ease-of-use

GLX-640+C(Six-color Print Quality Assessment System[PQA-S]-equipped 40-inch offset printing press with inline coater)
